Extreme Rarity!

OFF-METAL WASHINGTON BICENTENNIAL MEDAL

444. Washington Bicentennial Medal in off-metal! This medal is one of three struck! Struck in 1976; 1½-inch (33.7mm) german silver. This is the mini-medal created for the series

of famed early U.S. medals issued in pewter. Struck by the U.S. Mint at Philadelphia for Treasury & Bicentennial officials as a pattern to test the composition. Consigned by a former bicentennial official who has the only piece outside official Treasury custody, and presumably, the only piece which could come on the market.

Obv is the Houdon bust by Pierre Simon Du Vivier which was reproduced by U.S. Mint engravers for this bicentennial medal series. The reverse is the standard "Peace Reverse" with clasped hands with crossed tomahawk & peacepipe. Millions were issued in pewter including those for PNCs.

The medal comes with full documentation. It will be the key of any bicentennial or Washington medal collection; it is a future \$5,000 rarity. In unc. condition, with light obv. lines \$500.00-600.00

Photographic Medal Brings Record \$2,100

Total Medal Sale Realizes \$30,000

The 746-lot auction conducted September 16, 1979 by Johnson & Jensen, realized a total sales of \$30,247.45. Each auction sale by the three-year-old medal firm continues to surpass previous sales by all criteria.

Highlight of the sale, of course, was the Southworth & Hawes medal of 1847. Bestowed by the Massachusetts Charitable Mechanic Association, the silver 38-mm medal (lot 424) brought \$2,100 and caused somewhat of a stir among the photographic-collecting fraternity.

Southworth & Hawes items are considered among the most desirable of early photographic items. The buyer was a dealer who stated the medal is not for sale at the present.

The Weinman family collection attracted the most attention among medal collectors and the bronze statue, "On Nimble Toe," (lot 332) realized \$1,700. The collection also included galvanos, relief plaques as well as medals.

The gold medal by Gutzon Borglum, the David Livingston Century Medal (lot 349) brought \$910; a bargain for the buyer since the gold value rose shortly after the sale.

The off-metal Washington bicentennial piece (lot 444) brought \$830. While such a recent medal, it was one of three struck in off-metal german silver for U.S. mint and bicentennial officials.

Other notable lots were: a matching pair of African Waterhole galvanos by Anna H. Huntington (lot 319) \$400; a matching pair of military reliefs (lot 331) \$310; a gold Tiffany medal for the Society of Colonial Wars (lot 355) \$300.

BUSY TIME! Collectors gather to examine lots prior to the auction. All lots are available for this personal inspection for several hours prior to each auction.

Dates Of 1980 Medal Sales Set

A tremendous number of medal consignments are influencing our upcoming auctions. We will strive, however, to maintain our pace of four scheduled medal sales a year.

The first 1980 sale, scheduled for February, will be an unprecedented (for us!) 1500-lot sale. Because of weather and date conflicts we have decided to make this a

mail bid only sale—no floor auction, bids by mail only, with a closing of March 15th, allowing extra time for collector bidding.

For our second 1980 sale, it has been suggested that we hold this in conjunction with the Greater New York Coin Convention, May 1 through the 4th.

Already, we have over 1,000 medals consigned for this sale. It will consist of two sessions and a few more consignments could be accommodated.

Future sales would be scheduled for Fall and Winter 1980. Dates are given in the adjacent box. Consignments are indeed solicited for these all-medal sales.

Invoices Mailed Day After Sale

We process and mail several hundred invoices to successful bidders on the first day after our auctions. This requires both partner's and one secretary's full time that day.

Several collectors have asked that we ship their successful lots with the invoices. Sorry! We just cannot physically accomplish that with an increasing number of lots and bidders.

We feel to be fair to all, the invoices should be mailed just as quickly as possible after each sale, which we will continue to do.

SNAPPED AT ANA SHOW! Amid the clutter of a busy bourse table Chris and Dick are caught by photographer John J. Ford's candid camera at the ANA convention in St. Louis last July. Open shirted Chris dressed for the heat outside, jacketed Dick dressed for the air conditioning inside. Photos at left taken during the September 16th auction, with auctioneer Herb Melnick calling the sale.

Mailing List Placed On Computer

Your name and address should be on computer as you read this. All of Johnson & Jensen's mailing list has been placed on computer for greater accuracy & speed in sending our literature to you.

From a small list of 500 names, to which partner Chris Jensen had sold medals more than four years ago, this list has grown to over 10,000 names. It is our long-range plan to incorporate into this data bank each collector's topical interest and collecting specialty.

But there is a period when some "bugs" will undoubtedly creep into any new system and we have been assured by the data processing service bureau that these problems will be kept to a minimum.

However, we would appreciate it, if you would note your name and address on your next mailing label for its correctness. Also, if you should move, please notify us in ample time. We want to keep in touch with you—we always need your correct name and address.

If You Receive Two Catalogs...

"You are sending me two catalogs!"

We know. As we place our mailing list on computer (see above) we have mailed our subscriber's catalogs with manually prepared labels (these were sent first class—what you paid \$10 for) and possibly a second copy was sent to you by bulk rate.

You may file the extra copy, or, if you wish, give the extra copy to a friend who might find medal collecting of interest. We hope to feel comfortable with the computer list shortly.
